U. S. GRANT,
Will make Two Trips per Week to the
CITY OF ASTORIA!
Carrying Passengers at $10, the Round Trip, (Meals Included.)

The Boat leaves Portland Wednesdays and Saturdays at 7½ A. M. Returning leaves Astoria Thursdays and Mondays at 6 o'clock A. M.

Every person purchasing a Passenger Ticket will be presented with one of 500 Prize Tickets, to be drawn on the 1ST DAY OF AUGUST, 1867, for the following Prizes: Steamer U. S. GRANT, to be divided into 4 shares;
ONE BLOCK OF LOTS IN EAST PORTLAND, divided into 8 shares, or one lot to the share, viz: Lots 1, 2, 3, 4, 5, 6, 7 and 8, Block 17, opposite the "New Columbian" Hotel and at the terminus of the proposed Suspension Bridge;
ONE GOLD WATCH, worth $100;
160 CORDS DRY FIR WOOD, in 8 shares, to be placed on the Brooklyn Wharf.

The Steamer is 64 tons burthen, 62 horse-power engine, propeller wheel, draft of water 6 feet. She is being thoroughly refitted and refurnished as a Passenger Boat. The Boat will be delivered in perfect order, free from all incumbrance, and Warranty Deeds made to the real estate, to the persons drawing the same. Tickets can be had of O. P. PERRY, in Portland, where the money will be left on deposit till the prizes are drawn and delivered.

Any person having a claim against me, and wishing a ticket, can get an order for one by calling on me on board the boat. The person drawing the gold watch can have $100 in gold coin, if preferred.

O. P. PERRY, Broker, E. J. LADD, ex-Sheriff Al. ZEMBLER, U. S. Marshal, and C. B. SYLVIE, Merchant, of Portland are the Committee and Judges to direct the Drawing of Prizes. The Prizes will be drawn before the 1st of August, if all the tickets are taken before that time.

The above liberal offer is made to the traveling public to enable the subscriber to pay his debts and not with any reference to speculation, as all the property is valued at much less than its cost, (the Steamer alone having cost $11,000), and the price for carrying passengers to Astoria being much less than the usual fare.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 29.—In an article on the election of Congressmen, this evening's *Bulletin* says: The partial defection of California through the election of a Democratic Representative would be hailed as an indication of popular reaction against the cause of equal rights, hence the duty is just as imperative now as ever that Congress send a united delegation of Republican Unionists to Washington and no man can be regarded as friendly to the State and to the advanced principles that ought to control the future of the republic, who, by acts and words, does aught to defeat either Phelps, Higby, or Harmon.

Alvin Finke, Asa Finke, and Gustave Valentine were arrested last evening on complaint of the agents of Eugene Cliquot and Charles Heidsiek's, Champagne, J. Brenne and A. Dibble respectively, the agents for the sale of these famous brands of imported wines. They noticed a hidden and remarkable falling off in their sales, and were unable to account for it upon any other supposition than that some one was under-selling them with a base counterfeit. The parties had counterfeit labels of both Cliquot and Heidsiek, very closely resembling the original, and used second hand corks bearing the brand of the manufacturers of the original article, in order to complete the deception.

MONDAY MORNING, JULY 5, 1867

The Interior

We have, within a day or two, returned from a brief trip through the middle counties of the Willamette Valley, during which we conversed with several persons resident in counties which we did not visit From what we saw and heard, we are inclined to the opinion that the interior of the State is in a much higher condition of prosperity than one living constantly in this city would be likely to imagine The impression prevails here that the State is suffering from a general depression in business. It is strictly true that, as compared with some seasons in the past, business is not going on with a rush, nor excitedly; yet, there is a steady-paced improvement very observable everywhere, indicating a healthy tone and giving assurance of permanence. Portland is more distinctively a commercial city than most others in the State and less nearly allied with agricultural, manufacturing or mining interests. Salem, for instance, is very closely connected with a very fine and large agricultural country On every side are large, well cultivated farms, worked by an industrious, frugal people whose wants are few and whose products more than amply supply them. Salem receives the greater part of all the tribute those farmers pay to commerce, and hence, goes along with them in all material prosperity. Farms, as they are developed, become more valuable; property and population in the town increase in the same ratio. It will be recollected that everybody here, a few months since, was surprised to learn that Salem had a population of near four thousand—a large increase within two years, during which this city had grown very slowly. Yet, that increase was but the natural result of an intimate relationship with a prosperous agricultural country. What is true of Salem, is also true of Albany and every one of the well situated towns and villages of the farming counties of the interior. They are all growing—spreading over a wider area and becoming more compact. Business, in them is little less brisk than during any of the last six or eight years. There are no sudden fortunes made, but all are gaining steadily and apparently as surely as ever before.

The farming country of the interior would scarcely be recognized by one who has not seen it for several years, and taken note of its constant advancement. Within the less than three years, since when we have been most of the time absent from Marion county, the improvement of the old farms, the number of thrifty new ones opened, the number and the substantial character of the farm-houses built, the increase of strange faces, and other evidences of progress, all struck us as something surprising. Persons with whom we conversed, from Polk, Linn, Benton and Lane counties, assured us that what we saw in Marion was only what could be seen everywhere else in the valley. The complaints of hard times are no more frequently heard than at any former time. This steady advancement, assuring and continuing fit a time when all the commercial interests of the coast are depressed, affords gratifying evidence that the State at large will remain exempt from the "hard times" which are now griping almost every other section of the United States.

Oregon in the U. S. Senate.

When Senator Williams, in response to the serenade given him in this city, stated that he drafted the bill which is known as the reconstruction law, A good many Democrats in private life as well as of the press, affected to discredit the statement and sought to make it appear that the Senator had told it as a sort of cock-and-bull story to give himself an importance before the people of Oregon, which his public services would not warrant. This, of course, was only a petty exhibition of partisan spleen and that sort of uncharitableness which never permits a copperhead to see anything good or great in a political opponent. We have a bit of testimony from another source, on that point which is in regard to the standing of Mr. Williams at home, which will serve to gratify the Senator's friends, and which will not be particularly relished by such of his copperhead enemies as have ceased to tradoce and belittle him. The Washington correspondent of the *State Journal*, writing from Washington May 20th,—twelve days before the passage of Williams—after speaking of the consistency of reconstruction upon the just principles of universal liberty and equal rights, as provided in the reconstruction act, says:

> It must be peculiarly gratifying to the people of Oregon —since the strongest and least populous of all the States —to know that Judge Williams was the first mover of this great national measure of reconstruction. He was also the author and leading advocate of the bill to "regulate the tenure of office." Those were the two most important bills passed by the Thirty-ninth Congress. For a man who has been in the Senate but a part of one term, in the midst of the most distinguished statesmen of the Republic who have served in that body twelve to fifteen years, to have originated and carried through the leading measures of two important Congress, is a distinction I believe, which no other Senator has ever gained. Aside from his character as a legislator, he ranks high on the committees He was Chairman of the Committee on Contingent Expenses—and it is not usual to place a new Senator at the head of a committee—and is now Chairman of the Committee on Public Land Claims. He is a member of the Finance Committee—the most important of all the committees in the Senate. There is but two who rank above him on this committee, Sherman, of Ohio, its chairman, and Governor Morgan, of New York. Senator Williams is making his mark as a statesman, and gaining a national reputation, which will make his services of great value to the people of Oregon and the Pacific coast, as well as the country at large.

The New York *Day Book*, the leading Democratic organ of the United States, says that it cannot conceive of anything in the way of Radical "monstrosities" to be added to the abolitions of slavery. It says that act "covers the whole ground and no extremity of human calamity could well surpass it," and then further on, says: "But as the whole thing must break down, and all that Congress does has neither constitutional nor moral binding, the Southern people should have no fears, and simply devote themselves to the one vital consideration of self-preservation while undergoing this experiment."

The "experiment" to be undergone, which is hinted at, can mean nothing else than a forcible resistance to the laws of Congress. If slavery cannot be restored, if late traitors cannot reconstruct themselves in their own way; if they cannot be let alone while reinstating in their old-time sway the ideas which led by inexorable logic to secession, civil war and calamities innumerable, then the "experiment" of an another rebellion is to be tried. Such is Northern Copperhead Democracy. The Southern people have probably, however, had enough of that sort of "experiment."

TWO GREAT EVENTS COUPLED.—The subjoined mention of two great events in the history of America, is from the Albany *Democrat*. Let historians make a note of it.

> Ninety-one years have rolled by since the American people severed the political ties which bound them to Great Britain; and *eighty-ten years have elapsed since the writer hereof has attended a Fourth of July celebration.*

The "Fourth of July celebrations" for the last "eight or ten years," which the editor of the *Democrat* might have attended and didn't, must have been excessively dull and stupid affairs How the editor *could* refrain from enlivening them by his gracious presence, is something unaccountable, except on the hypothesis that, during most of those eight or ten years, patriotism cost something. Now that it is cheap, the editor proposes to unbottle his stock and "have a good time once more." Well, we do not object—we rather like to see a man spread himself on that sort of a lay out, at least as often as once in eight or ten years.

For Justice of the Supreme Court in the recent election in Michigan, Benj. Thaver received 80,819 votes and Sanford H Gowa 55,856. A Republican majority of nearly 23,000.

We are informed that Gov Woods has accepted an invitation to stump the State of California, in behalf of the Union State and Congressional tickets. The invitation comes from a large number of the most prominent Union men of that State. This is a flattering compliment to our State.

Subsequent to the conclusion of the railroad suit, at Salem, on Friday afternoon, Samuel Clark, of the *Record* and J Gaston, attorney for the defeated railroad company, had a pugilistic encounter, in which, however, no great amount of blood was spilled, thanks to the intervention of bystanders This is the first "collision" on the Oregon Central Railroad

A correspondent of the *Mountaineer*, writing from Canyon City, says A prospecting party to Crooked river is being talked of, to start from here in a short time, and from what I can learn it will be composed of the right sort of men, so that before fall we may expect to hear of the place being found where the emigrants of '45 hammered the gold out on their wagon tires.

The Linn County Bible Society, says the Albany *Democrat*, was organized on the 26th inst The following named persons were elected officers for the ensuing year: Vice President, E S Merrill, Secretary, Dr. G. W. Gray; Treasurer, E A Freeland; Executive Committee—Dr. D B Rice, John Smith, James Elkins, D. D Gray, Rev. J F. Damon.

A disgraceful affair, says the Corvallis *Gazette*, occurred at Philomath on last Sunday afternoon, just after Sunday school Two youths, named James Howell and Eli Mason got into a row over a dog fight. They indulged pretty freely in obscene and profane language, spiced with a little hair-pulling and gouging Mason, the next morning reported himself to A J Williams, Justice of the Peace, paid ten dollars, and made complaint against Howell, who was fined $50.

Railroad Suit.

The Oregon Central Railroad Company (incorporated last September,) brought suit in the Circuit Court of Marion county, at the June term, praying for an injunction to restrain the Oregon Central Railroad Company (incorporated a couple of months since) from the use of plaintiff's name, and from usurping its offices, making contracts, etc. The *Record* of Saturday furnishes the following synopsis of the case and the decision of the court:

> Oregon Central Railroad Company vs. Oregon Central Railroad Company. The complaint alleges that the plaintiff is a corporation organized under the general incorporation law of Oregon, under the corporate name of Oregon Central Railroad Company; that it has certain valuable franchises, secured by act of Congress, and also from the Legislature of this State, in the shape of lands, right of way, the faith of the State to pay seven per cent. interest on one million dollars of bonds, &c.; also, that the defendant, who is sued as a corporation under the same name, has wrongfully assumed the corporate name of the plaintiff, is usurping and intruding itself into the offices of plaintiff, and infringing on the use of its corporate name and functions, and prays a perpetual injunction restraining defendant from the use of plaintiff's corporate name and from usurping its offices, making contracts, &c., &c
>
> Defendants demurred to complaint, on the following grounds, in substance: 1st, That the plaintiff, according to its own showing in the complaint, is not a legally authorized corporation, on account of defects in its organization, as shown in the complaint 2d, That the plaintiff's remedy, if any, is *qua warranto*, and not by injunction. 3d, That the complaint does not state facts sufficient to constitute a cause of suit, or that authorize a court of equity to interfere by injunction. 4th, That several causes of suit are improperly united
>
> The Court sustained the demurrer generally, holding that according to the language of the complaint it failed to show that plaintiff was a legally authorized corporation. The Court further held that the complaint (which contained twenty pages of closely written matter) did not present a case that would authorize the interference of a court of equity, or the issuing of an injunction, that the mere adoption of the same corporate name of plaintiff did not authorize an injunction, except the complaint had shown an interference with the rights and functions of plaintiff, and this the Court held the complaint failed to show; that the mere fact of the defendant assuming the same corporate name of plaintiff and of making contracts in that name, and issuing stock and bonds in such name, was not such an interference with any rights of plaintiff as would authorize an injunction
>
> This decision goes directly to the whole merits of the plaintiff's case, and it is impossible to make any amendment that will entitle plaintiff to another standing in Court.

ABOUT INDIANS, ETC.—From a gentleman who arrived in town on Monday, from the Warm Springs Reservation, we learn that Capt. McKay, with his company of Indian scouts, had been ordered to Camp C. F. Smith, and that they took up the line of march for that place on Sunday morning last. Captain Darrah left with his company some time ago for the same place. This leaves the reservation at the present time without protection, excepting the employees, who number but six persons, and about twelve or fifteen warriors. A number of the Indians, for fear of a raid from the Snakes, have left the reservation and come into the settlements, bringing with them all their stock. The agent has no force at his disposal to compel them to remain on the reservation, but he will do all in his power to get them back again. At present the agency is entirely at the mercy of the Snakes should they make an attack, as the place is unprovided with anything like a fortification, not even a block-house. Last year the Snakes made a raid and captured seventy-seven head of horses, killed Postumus, Chief of the Tygh band, and wounded several others. Thus for fear of another similar raid and the defenceless condition of the reservation, all those having any stock left.

The entire military force is now being concentrated in the vicinity of Stein's mountains for a summer campaign. This we believe to be a very good arrangement, provided that the country along the Canyon City road is not left entirely destitute of troops and exposed to the raids of small roving bands of Snakes, which is sure to be the case as soon as they find that the military have all gone to the south-eastern portion of the State. With proper management, we believe that this summer and the coming winter will let Mr. Snake out. We have a number of good and able officers in the field and we hope they will give a good account of themselves.—*Mountaineer*, 29th.

THE CALIFORNIA GRAIN CROP.—The California *Bee* of the 20th, says The harvest, which a fortnight ago, from general rumor, was thought to be little more than half a crop, will probably be nearly a full one in most of the grain growing counties Such are now the reports, says the *Alta*, from Napa, Alameda, Santa Clara, San Joaquin, Yolo and Sonoma The area planted is a fourth greater than last year, and the yield will no doubt be greater The yield of fruit will be enormous, save in the far north, where it has suffered from late frosts. The agricultural prospects were never seemingly so prosperous as at this time

The official canvass of the vote for Supreme Judge in Wisconsin shows a total vote of 56,786, of which 48,895 were cast for O. Cole, Republican, 8,289 for L. P. Wetherby, Democrat, who published a declination befor the election, and 1,552 scattering.

ARRESTED FOR PASSING BOGUS DUST

The *World* says: On Monday morning a man who gave his name as Finegan, paid Stage Agent Pinkham his fare to Boise City in strange looking dust, and soon after the stage went away Pinkham had it tested. Under trial with acid the stuff became nothing. Immediately Mr Pinkham informed Sheriff Crutcher of the affair, and Deputy Brown was at once sent in pursuit of the fellow. He succeeded in overhauling the stage a long way down the road, took his man, brought him back, and he is now in prison to answer A small sum of bogus dust was found upon him when arrested. We hear of a new sort of bogus dust which has come into play of late—apparently made of pyrites of iron, and coated with gold by chemical process. It can be readily discovered by crushing or breaking the particles. We advise our readers to be on their guard against the bogus stuff.

MINING AT PIONEER CITY.

The third clean-up of the season was made at the quartz mill of the Elkhorn company, six miles from Pioneer City, in this Basin, last Saturday, and from seventy tons of ore the gold produced was four hundred and ten ounces There is yet over five hundred tons of the same kind of ore to crush, and the hands are continually getting out more The uniformity of the gold product of this noted mine is a shouting evidence of its enduring richness. There is very little noise made about the mine by its owners, but at the same time they are monthly assured of its great wealth by receipts of large masses of bullion retorted from each clean-up.

A curious announcement periodically occurs in the official part of the Government organs of Prussia. The Minister for Spiritual, Educational and Medical Matters solemnly proclaimes, every half year, we believe, what for a certain period, and throughout all the parts of the Prussian Monarchy, shall be the price of a leech. The tariff has just been fixed at the beginning of this spring time, and we are delighted to be the first to inform our readers that from April to November, throughout Prussia, Nassau included, every single leech is to cost two silbergroschen, neither more nor less. However, there is perhaps, a moral here. One of the minutest items of "National Economy" though it be, it incidentally reveals the marvelous precision with which the whole organism of that State is regulated and watched over—a State and organism of which we know so very little before Sadown.

A certain farmer (a pillar of the church) had a fine field of wheat which, being a little late, was threatened with early frost. In the emergency he went into his closet and wrestled in prayer with the Lord for its preservation. In his prayer he stated the facts fully and wound up his petition in these words: "Not, Lord, that I would dictate, but merely recommend and advise."

SHARP REPORT.—"Madam," said a cross-tempered physician to a patient, "if women were admitted to Paradise, their tongues would make it a purgatory." "And some physicians, if allowed to practice there," replied the lady, "would soon make it a desert."

A DOSE OF SALTS.—We have heard of men making absurd bets on elections, and in various other ways, by which one party would be sure to loose, and he that lost would be forced to propel a wheelbarrow several miles, etc., etc.; but the last, very last thing of the kind, happened in our own Portland. Two of our young men, very well known and of popular repute, happened in a drug store on First street, for the purpose of purchasing medicinal articles, and being in a cheery mood the proprietor was made to take the chances by throwing dice to see which should buy the two tooth brushes, and the dice were thrown and the brushes purchased; then tooth paste was secured in the same manner, and then a hair brush. Becoming enthusiastic, one of the parties proposed to throw for a dose of salts, the one vanquished to go down the horrid dose. The dice were again thrown and the salts won. The druggist was called upon and prepared the dose in a proper quantity of water, when the winner stepped forward and received the contents of the vessel in the cavity below, much to the discomfiture of his stomach, but with satisfaction to his pledged faith. A wry mouth was made and exclamatory ellegnut supplied, and our young friends departed, no doubt wishing they hadn't met.

FROM THE UP RIVER.—The following items of news we cull from the *Mountaineer* of the 29th ult.: The upriver freights have been very good during the last week. The down river freights for the week ending Thursday 25th, amounted to 5000 pounds wool; 220 quarter sacks flour and 1200 hides.....We are informed that Messrs. [illegible] & Weaver of this city have a contract for transporting one hundred and eighty tons of Government freight from San Francisco to the different military posts in Oregon Territory. They also have the transporting of one hundred tons of flour from Walla Walla to [illegible] destination. The freight is shipped from San Francisco to Portland in sailing vessels, and from Portland to Wallula by the O. S. N. Co.'s boats, and we are told, considerable cheaper than it can be carried by any other route.....We are glad to learn, by a private but authentic letter, that Col. Marshall and Capt Pederson, U. S. A., have been honorably acquitted of all the charges preferred against them by the Court of Inquiry which recently sat upon their cases at Fort Boise, composed of able and honorable officers of the army.....*Idaho Herald*.....Corporal Kennedy, Co F., 2d U.S. Artillery, arrived in this city on Wednesday, from Walla Walla, in charge of two men of the 8th Cavalry, who he was conducting to Fort Vancouver for trial, one for desertion and the other for being drunk and disorderly.

GOOD TEMPLAR LODGE.—Enoch G. Adams, Grand Lecturer of the I. O. G. T., organized a lodge of Good Templars with twelve charter members, in Cedar Creek Precinct, Washington county, on Wednesday, June 26th, which assumes the name of the Middletown lodge. The following is the list of officers: Thomas L. Brickell, W. C. T.; Miss Maria J. Vandewalker, W. R. H. S.; Miss Francis F. Allen, W. L. H. S.; Miss Sarah E Brown, W. V. T.; William J. Smith, W. S.; J. Albert Daniels, W. F. S.; Mrs. Olive M. Gregory, W. T.; Elisha N. Smith, W. M.; Miss Hattie E. Olds, W. I. G.; Edwin Albee, W. O. G.; Mrs. Althena Barnum, W. C.; Thomas J. Gregory, P. W. C. T. & L. D. A lodge was also organized of fourteen charter members, on Chehalem Mountain, Yamhill county, on the 28th, which takes the name of Bully Rest Lodge. The following are the officers: Wm. A. Gregg, W. C. T.; Miss Susan Hester, W. V. T.; Cyrus V. Dell, W. S. & L. G.; Mrs. Nancy Vaughan, W. F. S.; Mrs. Sarah Hester, W. T.; Charles H. Vaughan, W. M.; Miss Ellen Winters, W. I. G.; Uriah Bradley, W. O.; Miss Joanna Winters, W. C.; George Hodter, P. W. C. T.

BOARD OF DELEGATES.—Saturday evening last this body met and granted several certificates to firemen who have served the requisite time to entitle them to a certificate of exemption. At the meeting also was disposed of the question of the procurement of certificates for the use of the Department. It has been decided to negotiate for the certificates, a specimen of which Jos. Buchtel presented to the Board. A committee has been instructed to procure 400 copies at the price proposed, to wit: $500, and the stone upon which the same was printed is also included in this price. So hereafter the Department will have in its possession all that is necessary to procure more certificates. The three designs at the bottom—on each corner and in the centre—are to be replaced by a view of the Willamette Falls at Oregon City, on the left, Portland in the centre and Mount Hood on the right. One peculiarity worthy of notice in these certificates is that they can be used for either ordinary certificates of existing membership or certificates of exemption. The plan upon which the entire certificate is gotten up is beautiful and would ornament any gallery of art, and we are glad that this instrument have been fortunate in procuring the same.

HONORS.—The contemplated celebration of the 4th by the Society is the general topic of conversation upon the streets at present. Everybody is more or less interested, and from what we know of the preparations by the Society, and the number of members who will take an active part, we predict this will be the largest and most gorgeous display of the kind ever gotten up on the coast. The procession will move from their club room about 9 o'clock on the morning of the 4th, parade through some of the principal streets to the Base Ball Club grounds, where a suitable stand will be erected for the conclusion of the day's entertainment. We are authorized to state that the club-room No. 70, Front street, will remain open day and night until noon on the 4th, for the reception of all who may wish to join the Society.

RUN-AWAY AND SMASH UP.—A very fine buggy and a very fine horse, from Taylor's Livery Stable, were yesterday in possession of a couple of our young men, who were enjoying themselves muchly, but their enjoyment was suddenly upset. The horse with the buggy attached was then attempted to cross an incline plain of about 45 degrees; the horse, of course, had no trouble in doing so, but the poor buggy couldn't make it, and over it went, spilling the young men, like a pan of milk, all over the ground. The horse run to get out of the way, and the buggy was badly mashed up, but not beyond the power of R. Cooper & Co. to repair. If the young men were hurt, which we hope they were not, they will naturally get well, as "all is well that ends well."

BUCHTEL'S GALLERY.—Joe Buchtel this morning appears before the world with a new advertisement. We last evening paid his gallery a visit and were forcibly struck with the extensive facilities he has prepared himself with for the successful prosecution of his business. We are satisfied from the specimens we have seen, and his numerous testimonials, that Mr. B. can give as life like pictures as can be accomplished with brush or camera. Mr. B is preserving in his cabinet likenesses of Oregon's public officers, both State and national, also Mayors of Portland and many others, which in after times will be sought after as relics of the past. We think Mr. B. is acting wisely.

RACING.—The last racing on the Riverside track was exciting. The first was between Aker's sorrel mare and Hill's Katy Darling—two heats of half a mile—Aker's mare winning the first, upon the result of which much money changed hands. The second heat was won by Katy, taking a purse of $80. The next race was between Johnson's mare Mt. Hood, and Miller's cream mare Flaxtail—one-half mile—won by Flaxtail, taking away a purse of $50. Another race took place between Katy Darling and Flaxtail, the latter being given 150 feet, in the half mile stretch, for $20 aside—won by Flaxtail by 110 feet. The result of the race, and there been no odds given, would be that Kate would have won by 40 feet.

ADVERTISING.—Knapp, Burrell & Co. to-day advertise their celebrated thresher, the "Challenger." It is enough to know that this firm deal in these machines, to guarantee any farmer in purchasing one, being sure of its perfect success for that which it is recommended. We do not ourselves judge of them, but from the number which we constantly see going through our streets into the rural districts, our farmers must certainly know that they are a very desirable machine.

U. S. TAXES.—As we mentioned last Saturday morning, there is now published the notice of our Collector, Uncle Samuel, whether for licenses (now termed "special tax") or duties on carriages, watches, etc., etc., to speedily come forward and settle that which will in ten days become delinquent. And then look out for penalties, distress of property and the scowling of faithful officials.

PASSENGERS.—The following are the passengers berthed for Portland, by the steamer *Ajax*, which sailed from San Francisco on the 28th: J F Wiley, Wm Kay, J S Morgan, S Scott & wife, Jno McNally & wife, J A Myers, Jesse Strong, Miss Plummer, Miss Bell, H O Hyde, and family, The Misses, J V R Witt, Mrs Ball, Jos Burke & wife, Mrs Martin, Mrs Caldwell, T J L Smiley, J C Bell, J O Baird, wife and child, J E Dicker, J A Bremer, N D Dickey, wife and 2 children, Wm Owsley, and 20 in the steerage.

A YACHT.—There is now in our waters, a yacht named *Jessie*, rather superannuated, but nevertheless deemed by her owners to yet be the fastest of the size floating on the waters of the Willamette. She was built in New York, and won many a race with boats of equal capacity. Fortune, good or bad, sent her to San Francisco on board a sailing vessel. In the latter city she proved successful in many a contest. This boat is 28 feet in length, 7 feet beam, and 2 feet depth of hold, with center board, and is a fine sooder.

DEPARTED.—D. C. Ireland, Esq., wife and child, depart this morning for their home in Oregon City.

ATTENTION, CLUB.—The President of the Pioneer Base Ball Club requests us to say to the members that punctuality is absolutely essential when called upon to practice. He on the ground at the minute announced in the call, and others will not have lost time (nor patience) in being as all should be—punctual. The Club meets this evening for practice at half past five o'clock. A regular meeting will be held at eight o'clock at the room of the Club.

A DANCE.—The barge of Messrs. Grounds & Atkinton came up Saturday evening in charge of the *Couch*, from St Helens, and is loaded with several thousand feet of lumber and lots of cord wood. The lumber is intended for several different persons, and a portion of the sand is for Goodenough & Clark, contractors for the erection of a school house, in District No. 1, Couch's Addition.

CAUTION.—Hereafter we hope "Sammy," Richardson's efficient clerk, will, in signing receipted bills, do it in a different manner from that of Saturday last. A man more plain and wicked than fastidious and christian-like, placed a horrible construction to the signature of his bill, which ran in this wise—"A. B. R., by G—"

BALL AT OSWEGO.—At Oswego on the Fourth of July there will be a "Mechanic's Ball." No doubt the enterprising getters-up of this ball will have made all necessary arrangements for a gay and festive time, and will be a good place to advance till daylight in the morning.

THE PIXLEY BROTHERS.—After making a successful tour (judging from the papers) those admirable little performers are about to visit Portland once more. They will be here on the Fourth of July, and will give a concert, the particulars of which appear this morning.

PICNIC.—On the Fourth there will be a picnic on the Portland mountain, about one-half a mile from the city and half way to the residence of Judge Macquam. Everybody is invited to come, and bring a small quantum of that which is good to eat. A special invitation is extended to the members of the press and the printers. Let's all attend.

SALE OF SCHOOL LANDS.—The unsold school lands in the counties of Yamhill, Washington and Multnomah, will take place respectively on Tuesday, July 9th, Thursday, July 11th, and Friday, July 12th—sales to commence at 11 o'clock, A. M. Undoubtedly the full particulars will soon be published.

ARRIVED IN TOWN.—Mr. Gillette, Deputy Collector, located at Yaquina Bay, came up on the *Couch* last evening; also General Alexander and Major Elliott, of the corps of engineers operating on the Columbia. Colonel E. B Babbitt, of the Quartermaster's Department, also came up on the *Couch*.

INSTALLATION.—By advertisement in this morning's OREGONIAN, the officers and members of Hassalo and Samaritan Lodges, I. O. of O. F., are invited to attend the installation of the officers of Orient Lodge, at Vancouver, W. T. Persons going can start from here at five o'clock P. M., and return the same evening.

PRODUCE.—The *Senator* brought down on Saturday the following produce: 659 sacks flour, 13 boxes merchandise, 1 package planing knives, 21 cases lard, 61 bales wool, 10 boxes eggs, 6 gunnies bacon, 11 boxes butter, 500 feet flooring, 3 bales merchandise, 82 sacks oats.

FESTIVAL.—The ladies of the M. E. Church, will have a strawberry and ice cream festival in Monnastes' building on First street, to-morrow evening. Further particulars will be given to-morrow morning.

ST. HELEN'S SAWMILL.—This mill was unfortunate enough last week to break a bed plate, but soon remedied that ailing and when fairly commenced again, something else gave way, but will be running again by Tuesday morning.

ARRIVED.—The bark *Sea Merrill*, Capt. Trask, arrived yesterday morning at the wharf, foot of Washington street, 14 days from San Francisco. She brought up four hundred tons of freight, consigned to Knapp, Burrell, & Co.

WASHINGTON LODGE, I. O. of O. F.—The following are the officers elect of this Lodge.: J. H. Mitchell, N. G.; C. O. Clark, V. G.; W. W. Spaulding, R. S.; E. Cardiff, P. S.; C. Bills, Treasurer.

CAPT. MILLER.—This efficient seaman, formerly in command of the bark *Almatia*, is now the master of the *Architect*, running between San Francisco and Puget Sound.

CREATION.—J. F. McCoy, Esq., we understand, has accepted an invitation from the citizens of Sandy precinct to address them on the coming Fourth of July.

HAY AND WOOL.—The *Senator* on her trip up took a large quantity of hay for the use of the Oregon Stage Company, and considerable wool for the manufacturers.

IN TOWN.—George Ladd, Esq., now engaged in business at St. Helens, is in town and expects to remain a few days.

PERFECTLY NATURAL.—When a man befriends you, you always stick to him. If we sell you a suit of clothes cheap, why, of course when you want another suit you will make a sure thing of a good bargain and go back to the same establishment where you before clothed yourself so cheaply. If you come once you will come again—we do business on the up-and-up plan, and what we do once we will do again. Prices—A No. 1 overcoat, $15 to $25; a No. 1 black frock coats from $10 to $40; dress pants from $5 to $12; shirts $1 50 to $2 25—and rubber ties 50 cts.

FIRST NATIONAL BANK OF IDAHO—BOISE CITY, I. T.—Organized March 11th, 1867, (with circulation) under Act of Congress, approved June 3d, 1864. Authorized capital $500,000. Paid up capital, $100,000. B. M. Bidwell, President. O. W. Moore, Cashier. Collections of Notes and Accounts on the principal places in Idaho Territory promptly attended to. Sight and Exchange for Coin or Currency on this Bank can be purchased of Ladd & Tilton, Portland, Oregon.

A SPLENDID INSTRUMENT.—We saw, yesterday, at J. R. Parrish & Co's something new in the way of an organ—a French instrument called the Organ Harmonium—invented by Alphonse Rodolphe. It is a very considerable modification of the organ as we have them from the American manufactories. It is provided with sixteen stops, each of which exercises a distinct and peculiar effect upon the tone. The bass stops are the Forte, Jeu Doux, (soft, sweet) Bourdon, Clarion, Bombon, English Horn; the treble stops are Expression, Tremolo, Scotch Bagpipe, Flute, Clarionette, Fife, Hautbois, Voix Celeste, Forte, and Knee or Full Expression. The effect of these stops in changing the tone is most surprising. For instance: from the flute to Voix Celeste with Full Expression, the tone changes from what sounds precisely like a soft flute, to the full grand harmony which we would expect from an Angel choir—what the name imports. The Key-Board is movable and can be adjusted to any key, so any instrument, or to the voice of any singer. Other changes are also surprising. The instruments are of the most perfect workmanship and of the highest finish; have taken the first medals at all the great European Expositions. The prices range from $175, to $500. Persons in want of an instrument should call and see them, for it is impossible to get a correct idea of them, except from personal inspection. J. R. Parrish & Co., are sole agents for the Pacific coast.

Andrew Johnson.

It is at last definitely settled by the vote of the Judiciary Committee of the House that there will be no impeachment of the President, at the next session of Congress, and it is not probable, after the lesson he has received, that he will again set himself so openly and obstinately in opposition to the expressed will of the nation, as to provoke another attempt to remove him

After a laborious and thorough examination into the conduct of the President, the Judiciary Committee have endorsed the popular verdict, both as to the question of fact and expediency involved, and while their decision as to the facts illustrate the justice of the popular judgment, their decision as to the best course to be adopted is, undoubtedly, a true reflex of popular sentiment In passing, by a nearly unanimous vote, a resolution declaring Johnson guilty of acts meriting the condemnation of the people, the Committee, with all the evidence that could be obtained upon the subject before them, return the same verdict as did the loyal masses when those acts strayed against the Administration the solid majorities of every Northern State If Johnson had continued the same course, had persisted in disregarding the popular voice, and had attempted to carry his foolish and wicked threats into execution, there can be no doubt that the decision of the Committee would have been as that of the people was then—that Andrew Johnson had been guilty of high crimes and misdemeanors demanding his impeachment and removal from office, but by whatever cause impelled, the President has of late shown by a better disposition, and the people and the committee shrink from the trouble and expense involved in setting aside the Chief Executive, not because he does not deserves it, but simply because it is not necessary.

We have evidently passed through the greatest of the conflicts growing out of the rebellion, and the new condition of things has been fairly inaugurated. Popular government has been put to the most crucial tests, and has thoroughly demonstrated its capacity and strength. The people have shown that they could neither be intimidated, conquered, cajoled, bribed, or successfully betrayed. They have come off victorious in every conflict, and in the fullness of their victory are disposed to be magnanimous, to forget the injury received the moment the power to do further is gone. Had they been less decided in their convictions of right, less firm in their devotion to the principles which they had dared and suffered everything to carry out, had the Thirty-ninth Congress less truly represented its constituents, or been composed of a greater number of purchaseable men, Andrew Johnson might have done incalculable mischief, but as it is, his efforts have only resulted in the adoption of broader and more radical measures of national policy, in laying deeper and wider the foundations for a true and lasting reconstruction of the Union, and in exposing weaknesses in our governmental system of which it was well to be warned in time. Unwittingly he has served the cause he attempted to oppose, and hastened the triumph he strives to delay.

It is to be hoped that Johnson has become convinced of his errors. At all events, his perverse disposition seems, to a great extent, to have passed away with his power for evil, and for some time past he has apparently ceased his endeavors to oppose the popular will. So far he appears to have carried out the reconstruction acts of Congress in good faith, and has for some time refrained from those vulgar and irritating tirades which were so effective in alienating the masses from him. In his recent trip through a portion of the South he had the good taste to make no public speeches, and altogether he seems to have conducted himself in a manner which is open to no reproach.

If this course shall be continued, the President may feel assured that he will be allowed to remain in office during the rest of his term, and though his treachery to the Union cause cannot be forgotten, the nation will not be disposed to regret that it did not proceed to extreme measures against him —*N. Y. Times, 17th.*

SNUFF TAKING IN THE OLDEN TIME.—From *Chambers' Journal* we take the following: Silence proves nothing, or we might infer from Shakspeare's utter ignoring of snuff that English noses were slow to appreciate their delectable acquisition, but the evidence is conclusive the other way The mock gallant of the time, who dined with Duke Humphrey most of the week, sported, as they strutted in Paul's Walk, their tobacco boxes and snuff ladles, in imitation of their betters. Even the Puritans took kindly to the wicked weed in its new guise; the fiercest starched denouncer of worldly vanities looked lovingly upon this particular vanity, and scrupled not at admistering

Sir Plumes of the world of quality, ... and Bolingbroke, themselves plied ... Beau Brummell and the "first gentlemen in Europe" prided themselves not a little upon their graceful mode of opening the snuff box with the left hand only. The latter was as extravagant in snuff as most other things; but was fairly beaten by my Lord Petersham, who boasted a stock of snuff worth three thousand pounds; while his collection of boxes was something wonderful—he had boxes adapted for all occasions, boxes for winter wear, boxes for summer use; he was believed to have a different box for every day in the year. Lord Stanhope calculated that a regular snuff taker took one pinch every ten minutes, each pinch and its accompanying ceremonies occupying a minute and a half. One minute and a half out of every ten, if sixteen hours be allowed to the day, gives two hours and twenty-four minutes per day, or thirty-six and a half days in a year as the time wasted by the snuff taker upon his nose.

LOWER CALIFORNIA.—Professor Gabb, of the State Geological Survey, says the *Times*, who recently made an extended exploration of the peninsula, prescribed at the meeting of the Academy of Natural Sciences, on Monday evening, the 10th instant, a report on the geology of the country, accompanied by a map. The learned Professor's report was not very favorable. He represented the peninsula as quite worthless for agricultural purposes, and its mineral resources are confined to a point on the north-west, where Trinnion and a few other valuable mines redeem it from utter worthlessness. He stated that prospecting had been done extensively all over it, but with the above exceptions without profit. Geologically the peninsula presented many of the leading features of the coast range in this State The most remarkable point of resemblance is the extent of the table mountain formations, which, like those in California, consist of layers of sand, gravel and boulders cemented together, and capped with layers of volcanic rocks, but with the important difference that while the table mountains of California are rich in gold, those in Lower California contain none of desirable metal. From the Professor's description, there are many unlocated sections in this State which afford a much better field for Eastern capitalists to found a colony than is presented in Lower California.

IRISH EMIGRATION —An item from the return of the Irish Registrar-General for the last quarter of 1866 is suggestive of the rapid depletion of Erin by Emigration. During the entire year, his summary gives the number of registered deaths as 93 581, a ratio of more than sixteen to every thousand of the population, while the registered births were 146,277, a ratio of over twenty six to every thousand Yet, notwithstanding this great preponderance of increment, the decrease of population is estimated at 46,828. The spring of this year is bringing up again the falling off of emigration which was observed last fall, and from the single port of Queenstown the average of late has been one thousand per week, the aggregate being considerably increased by the flow from Cork and Kerry. Thus, while English politicians are juggling with superficial words of reform in the old matter of Irish grievances, those of the aggrieved who are able are getting away to a land where, if willing to work, they can have the whole result of their labor.

SMALL ACCOUNTS —It is strange that many persons feel little concern in the matter of paying small debts. "Straws show which way the wind blows," is a homely proverb; and a man who neglects to pay miner bills should not complain if his trustworthyness be questioned at a time when good standing would be of the utmost service to him. If a small debt be due, there is no excuse for neglecting its payment.

There has been a fanciful theory of this sort—that the physiognomy and the dispositions of various orders of the inferior animals are represented in the human family. There is some ground for this, in the features, the temper, the movements and the aspirations of members of the human species. The most recent case is that of a man who had been seized with an ambition to outjump all his fellow men, offering to test his superiority in the accomplishment of jumping, by one jump, three jumps, or ten jumps, for a wager of $1,000. All America is challenged to the contest. Here we see the cropping out of the grasshopper disposition, or perhaps that of the flea—the most famous of all jumpers. It is not difficult to imagine a lively and exciting contest between two specially athletic fleas, for the championship of the barn yard.

The starvation point that has been reached in South Carolina is evidently only relative. That point of famine which no longer admits of fastidiousness in the choice of food has not yet been arrived at. They are hungry, but some delicacy of appetite yet remains. Thus, for instance, General Sickles writing to the Chairman of the Southern Relief Committee in Boston, says: "If you send corn meal let me suggest that you send white meal; for white persons will not eat yellow meal. It is only given here to cattle, and even the colored people refuse it." When we call to mind what Union soldiers, who crowded rebel prison pens at Salisbury and Andersonville, had to feed upon in their extremity, it certainly requires some stretch of charitable feeling to arouse anything like sympathy for people who are so very particular about the quality of the alms they beg for.

A HELL UPON EARTH.—Theodore Tilton has been looking into New York by gas light, and dare not tell all he saw. He says in the *Independent*:

In company with several well-known public men and under guidance of the police, we made a tour Saturday night through the nethermost haunts of misery, vice and crime in the city of New York. This is an exploration which every man connected with public affairs, either by civil or editorial duty, ought, if possible, to make once in his life. Born in New York, and having always either resided or labored within it, we never saw or knew our own city until Saturday night. Never until then had we any adequate conception of its poverty or its squalidness, of its villainy, of its debauchery, or its leprosy! The sight can never be forgotten! The story, even if we had the heart to tell it, must for decency's sake, remain untold. We can only say that none of the familiar descriptions had adequately prepared us for the actual scenes. We were shocked, confounded, sickened! And as we now look back upon the awful revelation of the one night's descent into hell, we can hardly persuade ourselves that what we saw was reality; it seems a hideous dream.

SPIRITUAL GAMMONOLOGY.—The Detroit *Union* of May 10th, under this heading, says:

At Merrill Hall, last evening, a very good audience assembled to witness the *expose* of Spiritualism by Dr. Von Vleck of New York. The alleged "spiritual feats of the Davenport brothers were first taken up, and the experiments done in like manner. The haunted cabinet tricks—playing a variety of musical instruments while bound fast, hands and feet, to a chair fastened to the wall—were gone through with, but the explanation was held over until to-night. Spiritual rappings were successfully exhibited and explained. The Doctor holds that rapping can be produced in an innumerable number of ways—by the movement of muscles in the arms or wrists—but the most "popular" mode of rapping is that accomplished by an unseen movement or muscular effort of the foot, which he proved very clearly could be done, even by standing with pillows under the feet, on the table which is supposed to rap. The Doctor also demonstrated that the location of sound in a different place from where it originated was quite an easy matter, and can be done by any one with practice.

WHAT IS TARE?—A father was one evening learning his little boy to recite his Sunday school lesson. It was from the fourteenth chapter of Matthew, whereon is related the parable of the malicious individual who went about sowing tares, etc.

"What is a tare?" inquired the over anxious parent.

Johnny hesitated.

"Tell me, my son, what a tare is?"

"You have had 'em," said Johnny, casting his eyes down and wriggling his foot.

"Had 'em!" said the astonished parent, opening his eyes rather wide; "why, what do you mean, Johnny?"

"When you didn't come home for three days last week," said Johnny, "I have heard mother tell aunt Sunn that you were off on a tare."

The Sunday school lesson was brought to an abrupt close, and Johnny, the cunning little rogue, was sent off to bed.

CURIOUS EXPERIMENTS WITH FLAMES.—A lecture on the sensibility between a flame under certain conditions and certain sounds, was recently delivered at the Royal Institute of Great Britain. Illustrating these phenomena, Professor Tyndall said: "Some of these flames are of marvelous sensibility; one such is at present burning before you. It is nearly twenty inches long, but the slightest tap on a distant anvil knocks it down to eight. I shake this bunch of keys or these few copper coins in my hand; the flame responds to every tinkle. I may stand at a distance of twenty yards from this flame; the dropping of a sixpence from a hight of a couple of inches into a hand already containing coin, knocks the flame down. I cannot walk across the floor without affecting the flame. The creaking of my boots sets it in a violent commotion. The crumpling of a bit of paper or the rustle of a silk dress does the same. It is startled by the plashing of a rain drop I speak to the flame, repeating a few lines of poetry; the flame jumps at intervals, apparently picking certain sounds from my utterance to which it can espond, while it is unaffected by others."

The New York *Times*, commenting on the signing of the eight hour law by Gov. Fenton, remarks on its practical effect, as follows.

The agitators for this movement have succeeded—they have "regulated labor"—they have got two hours per day for idleness and expensive luxuries; and what does it cost? Twenty cents out of every dollar that might have gone into their pockets, which, with at least an equal amount that will be wasted during the extra hours of idleness, will be a *practical reduction of forty per cent in the wage of labor.*
